RE6505

Essential Series

TÜVRheinland CERTIFIED

IP5X DUST PROTECTION

ENERGY STAR

EDLA-certified with Enhanced Security

The RE6505 seamlessly integrates Google services with BenQ's reliable hardware and software, now powered by Android 16 for enhanced performance and long-term compatibility. Easily access Google/Microsoft tools and education apps via the Google Play Store and ensure data protection using secure login options, access controls, regular system updates, and built-in Google Play Protect and Safe Browsing.

Advanced Management Solutions (DMS & AMS)

The RE6505 series features BenQ's cloud-based DMS and AMS, providing centralised control of displays and user accounts from a single dashboard. DMS simplifies device setup with quick onboarding, remote configuration, app management, firmware updates, and task automation, while offering real-time analytics and energy usage insights. AMS ensures secure, personalised access with single sign-on and integration with cloud storage platforms such as Google Drive, OneDrive, and Nextcloud, keeping user data separate and allowing customised settings for a consistent user experience.

Comfortable Viewing with Eye Care Technologies

The RE6505 interactive display features a bright 500-nit anti-glare 4K screen for clear visibility in any classroom. Its powerful 70W sound system—two 25W speakers, a 20W subwoofer, and an 8-microphone array—ensures clear audio and communication. Built-in eye care technologies, including low blue light and a flicker-free screen, help reduce eye strain for comfortable extended use.

Because Earth Matters

ENERGY STAR®
The energy-efficient design of the RE6505 displays meets ENERGY STAR® standards and can reduce power consumption by up to 70%.

Sustainable packaging
We've reduced our transport and logistics footprint by increasing the loading rate by 60%.

Remote energy control
Lower unnecessary power use with DMS by remotely powering displays on/off and setting schedules.

SOFTWARE

EZWrite 6
Save lessons in editable whiteboard files (IWB) with Cloud Whiteboarding. Google Classroom is integrated with EZWrite WEB.

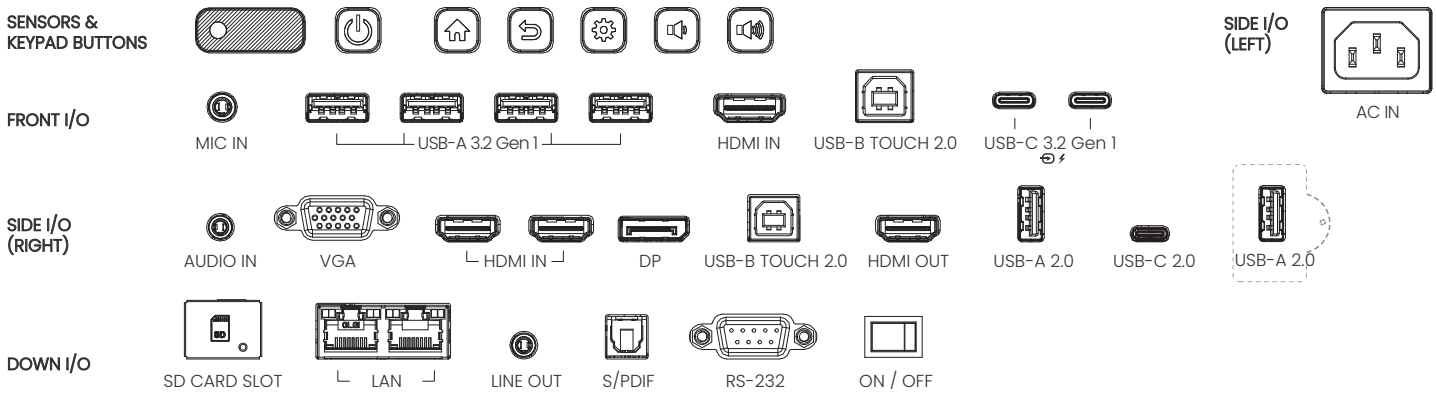

InstaShare 2
Wireless screen sharing & casting from any device. Share several screens simultaneously, with different types of content.

X-Sign Broadcast
Announcement system with cross-campus communication. Send visual alerts, warnings, and videos to all or one specific device.

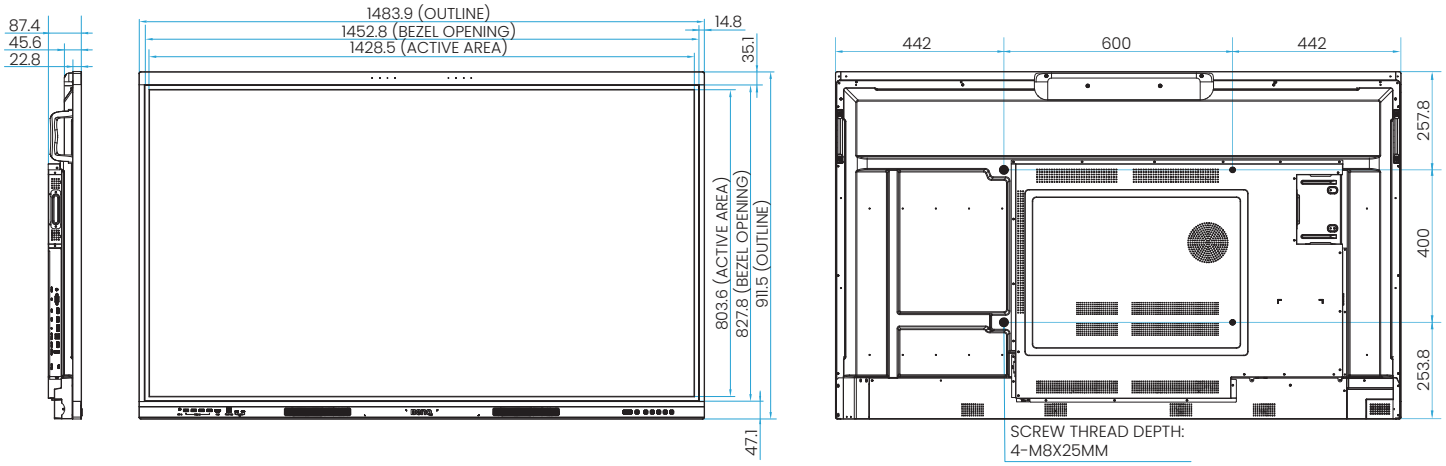

AMS
Account Management System to conveniently load and access your account and cloud storage from any BenQ display.

DMS
Device Management Solution centrally oversees all displays to get real-time status information, deploy OTA updates & more.
